

# APARTMENT SOLUTION

Hikvision offers apartment solutions based on different technologies for various needs. For new apartments, IP solution based on standard PoE design is simple and convenient. For older buildings that lack proper network infrastructure, the 2-wire solution enables the re-usage of existing wiring. Multiple door stations can be installed for one building and residents can unlock them using card or password. Integration with an elevator control system makes the entire system even more secure. Hikvision's IP Video Intercom Apartment Solution is a top choice for intercom and security system in buildings.
